2. COMPANY AND GROUP BUSINESS RESULTS

In Q4 of the year that was uncertain, challenging and unpredictable vis-à-vis the business of JADRAN d.d. (hereinafter referred to as the Company) and JADRAN Group (hereinafter referred to as the Group), operations continued in strict compliance with all epidemiological measures, primarily for the purpose of protecting Company's and Group's customers and employees.

After Q3 that saw a rise in arrivals compared to the same period in 2020, the Company and the Group can be said to have achieved much better performance levels in Q4 compared to the same period in 2020, thanks to favorable COVID-19 trends in Croatia and across the world.

It should be noted both for the Company and the Group that it is because the first part of our investment cycle was completed between 2018 and 2020 that it unfortunately did not yield the expected results due to the pandemic. This is why the results recorded in 2021 are a significant growth compared to 2019, being the year of reference, which ultimately resulted in the fact that JADRAN d.d. and Club Adriatic d.o.o. did not become eligible for state aid to the extent expected.

In Q4, which surpassed even the record year 2019 in terms of physical indicators, the Company recorded a total of 33,676 overnights, which is 30,972 overnights more than recorded in 2020 or 13,278 or 65% more than recorded in 2019. When comparing the year 2021 to the record year 2019, it should be taken into account that the capacities available to the Company in 2021 were 33% larger than those available to it in 2019, which means that in 2021 JADRAN d.d. recorded 1,828 overnights or 9% less than it did in 2019 on a relative basis.

In Q4, the Group recorded a total of 34,054 overnights, which is 31,217 overnights more than recorded in the same period in 2020 and 13,326 or 64% more than recorded in the same period in 2019. Again, the Group had 24% more capacity available than it did in the same period in 2019, which means that the Group recorded 9% less overnights in 2021 compared to the same period in 2019.

Based on the physical indicators for the January-December 2021 period, the Company recorded a total of 443,364 overnights, which is 106% more than the figure recorded in the same period in 2020 or 13% more compared to 2019. Based on overnights recorded in the same facilities, in 2021 the Company recorded 98% more overnights than it did in the same period in 2020. Compared to 2019, the Company recorded 12% less overnights in the January-December 2021 period.

Between January and December of 2021, the Group recorded a total of 559,391, which is 106% more compared to the same period in 2020 and 1% less compared to the same period in 2019. Based on overnights recorded in the same facilities, the Group recorded a total od 452,412 overnights in the January-December 2021 period, which is 100% more than it did in the same period in 2020 and 19% less than recorded in the same period in 2019.

3. COMPANY AND GROUP RISK EXPOSURE

The most significant risks faced by the Company and the Group are as follows:

Competition risk

Competition risk in the tourism market is very high because other similar tourism destinations have invested substantial funds in the growth and development of their capacities, as well as in marketing activities focused on tourist arrivals. Among other things, competition is based on the prices, quality and substance of tourism offerings in Crikvenica Riviera and Makarska Riviera and other domestic and foreign tourism destinations. To increase its market competitiveness, the Company and the Group launched an investment cycle in the 2018-2020 period, which includes not only investments in accommodations to increase the number of units and improve accommodation quality, but also investments in the destination through active involvement in all events and designing new attractions in Crikvenica Riviera and Makarska Riviera.

Currency risk

The official currency of the Company and the Group is HRK however certain transactions in foreign currencies are translated into HRK according to the exchange rate applicable on the balance sheet date. The resulting foreign exchange differences are recorded as expenses or through profit and loss, but do not affect operating cash flow.

Interest rate risk

The Company and the Group are exposed to interest rate risk because they enter into loan agreements with, inter alia, variable interest rates with banks, which exposes the Company and the Group to increased risk. Rising trends of inflation rates and general levels of interest rates in international and national financial markets are actively monitored to allow the Company and the Group to respond in a timely manner in case of expected changes in interest rates on the national money market.

Settlement risk

Settlement risk is present in all bilateral transactions. Considering that the performance of monetary obligations to the issuers is one of the key elements necessary for uninterrupted business, the Company and the Group give high importance to this risk. The Company and the Group have established stringent procedures to minimize collection risks. During the pandemic, certain partners may be additionally exposed to liquidity risk, which may result in increased settlement risk. In addition, settlement risk arising from executed contracts may be significantly increased in case a contract is terminated for force majeure or if free movement of persons and goods is prevented during pandemics.

Inflation risk

Inflation risk is in particular present in contractual relationships where the price of a service or product is indexed and tied to Croatian National Bank's strong HRK policy. As this is mostly an external risk, the ability to eliminate it is minimal. The Company and the Group observe rising inflation rate trends, which they primarily measure using consumer price indices and which result from very expansive monetary policies pursued by central banks and, for the purpose of minimizing inflation risk, the Company and the Group insist on

OIB: 56994999963

negotiating fixed terms of supply with all suppliers where possible. Suppliers of energy are an exception – their prices are subject to market variations.

Liquidity risk

The Company and the Group manage this risk by maintaining adequate reserves and by obtaining loans from banks and using other sources of funding, by constantly monitoring planned and actual cash flows, and by comparing maturity profiles of financial assets and liabilities. The Company and the Group treat this risk as particularly important as long as there is increased uncertainty with regard to revenue earning abilities as a result of the pandemic's adverse effects on the free movement of guests, impairment of their spending powers, and default on contracts by business partners.

Having implemented our divestment plan formulated earlier by selling some properties owned by CLUB ADRIATIC d.o.o., the Group ensured the liquidity necessary to conduct its business without interruption and develop.

Liquidity risk management includes maintaining sufficient amounts of cash and working capital.

Risk of tax and concession legislation developments

The risk of tax and concession legislation developments is the likelihood that legislative authorities will amend tax legislation in a way that they adversely impact the Company's and Group's profitability. This risk is reflected in potential changes in tax rates and taxable assets, as well as in changes in regulations concerning concessions and concessional authorizations. The right to use a maritime domain is one of the significant conditions precedent to further operation of the Company and the Group, so the Company and the Group have actively endeavored to establish new bases for cooperation with the local community in this segment. The Company and the Group hope that, during the pandemic, the legislators, the executive authorities and the local community will offer various financial and operating benefits to entities exposed to significant adverse impacts of the pandemic, in addition to the measures necessary to protect people's health.

Tourism industry risk

Tourism trends are largely affected by the broader political situation, growth of terrorism, the global financial crisis and the pandemic. As an industry, tourism is highly sensitive to the state of security at the destination and its surroundings. After the risk in some rival destinations was reduced (e.g. Turkey, Greece), the competitive position of both Croatian tourism and the Company has become additionally weakened. By launching the aforementioned investment cycle, the Company and the Group will endeavor to minimize the impact of adverse market trends and the resulting risks.

The global financial crisis may significantly reduce the spending power of individuals inclined to traveling, whereas a pandemic may also significantly reduce or completely eliminate the effects of tourist arrivals at the Company's and Group's destination as a result of the inability to travel outside one's own country or fear for own health and future.

Environmental risk

Environmental risk may significantly affect the Company's and Group's performance, notably through the quality of the sea and coast where guests stay. Climate change may directly affect the length of stay in Company's and Group's accommodation facilities. This risk also includes other natural disasters.
