

Edukido

Edukativno zabavni program *Educational and Entertaining Program*

Radionice su zabavne, ali i omogućuju otkrivanje novih spoznaja o svijetu koji nas okružuje, logičko i kreativno mišljenje, timsko rješavanje problema i učenje o razvoju tehnologije.

Workshops are fun but also enable the discovery of new insights about the world around us, logical and creative thinking, teamwork problem-solving, and learning about the development of technology.
